

Construction Law

Bressler's Construction Law Group assists companies in the construction industry in every stage of a project and provides an economical source for legal representation.

During a project's life span, construction clients deal with mechanic liens, insurance issues, design and construction defects, environmental, delay and inefficiency claims, employee or real estate matters. During and after a project, Clients encounter disputes and claims that land in litigation, arbitration, or other alternative dispute resolution forums. Bressler has the full-service ability to assist clients with all of their issue(s).

The Construction Law Group counsels clients on all aspects of construction projects, including:

- Commercial Private and Public Projects
- Construction Litigation, Claims and Disputes, Defective Design and Construction Arbitration/Mediation/Alternative Dispute Resolution
- Contract Drafting, Review, and Negotiations
- Corporate Governance and Internal Issues
- Delay, Inefficiency Claims, Claims for additional compensation for performing extra work
- Insurance and Bonds
- Mechanic's Liens
- Procurement and Bidding
- Sustainable Design
- Residential and Consumer issues
- Work-site accidents and safety violations
- Post-completion warranty claims
- Environmental hazards
- Structural failures
